

ALL-IN-ONE POS SOLUTION with INTEGRATED PRINTER.

In today's economy business owners must carefully weigh their investments in order to achieve maximum returns. How can you continuously deliver rapid, dependable service during peak hours, manage demands for greater product selections, and at the same time control escalating operating costs?

QUORION's All-in-One POS system is the answer. The QTouch 10 gives business owners everything they need in one unit without requiring any additional investments or hassles, because it incorporates a number of POS peripherals in one seamless design. Therefore, the QUORION QTouch 10 is ideal for smart businesses. You get a complete POS solution right out of the box!

Q Touch 10

...as simple as it is ingenious.

The QTouch 10 comes with a 10.1" spill resistant touch screen, integrated customer display, and Easy-Load printer. It provides maximum convenience, when it comes to serving your customers. Simply drop in a new paper roll, when the old one has finished, or quickly register articles via the graphical menu during check out. No bulky display or external printer is required at your point of sale. Most importantly it saves you installation time and costs. However, if you do decide on acquiring extra POS equipment such as cash drawers, scales, or scanners, the QTouch 10 does come with numerous interfaces to address this potential need.

Even though the QTouch 10 has everything built in, it nonetheless retains the small foot print that many have come to appreciate from QUORION POS systems.

Engineered, designed, and produced in Germany.

Everything wrapped up in an intuitive and clear user interface.

In addition to the built-in POS peripherals, QUORION outfits the QTouch 10 with the QMP software as standard. It provides specific POS functions, allowing for deployment in restaurants, retail stores, cafes, and bakeries. Launch article promotions, manage tables, or float clerks – no problem. Complete customization allows you to optimally tailor your POS system TO your business and THE WAY you do business.

The QTouch 10 loves to communicate.

It supports all the modern communication interfaces such as LAN, WLAN, or GPRS. Naturally, you can also network the QTouch 10 and share information between multiple units or other QMP based QUORION POS systems.
